

## Facilities Management Solutions

Robotech offers Integrated Workspace Management Systems (IWMS) with implementation services specific to corporate facilities to increase efficiency and profitability. Our supported intranet solutions include ARCHIBUS, Autodesk's AutoCAD and BIM / Revit products for Space Management, Staff Occupancy, Move Management, Asset Tracking, Portfolio Management and Building Maintenance (CMMS) solutions. Our implementation services include system deployment administration and data development for delivering an integrated Web Central IWMS solutions. Robotech's technical experts will help you implement the supported ARCHIBUS applications from conceptual design through system development to a complete IWMS.

Space - CAD & BIM - Occupancy - Work Orders - PM - Mobile

The image displays the ARCHIBUS web interface. On the left, a 'Department Area By Floor' bar chart shows area usage for various departments like SC-04, JFK C-B1, and BOSMED-01. On the right, a 'Highlight Rooms by Department Per Floor' floor plan for HQ-17 shows room numbers and their corresponding department codes. A tablet in the foreground shows the 'ARCHIBUS Mobile Apps' menu with icons for Workplace Services Portal, Space Book, Incidents Reporting, Asset & Equipment Survey, Space & Occupancy Survey, and Assessment.
