

## Autodesk BIM / Revit Solutions

Robotech offers CAD, BIM and IWMS systems and implementation services for facility building design & management. Supported applications include Autodesk's AutoCAD products and Building Information Modeling (BIM) products such as Revit and Civil 3D. These Autodesk applications together with Robotech's implementation services and training will increase your productivity, accuracy and coordination with building professionals. As a veteran authorized Autodesk Value Added Reseller (VAR) and Authorized Training Center (ATC), Robotech offers the technical expertise and resources for implementing CAD and BIM systems. As an ARCHIBUS partner, Robotech offers Integrated Workplace Management Solutions (IWMS) facility management. Robotech's technical experts will help you implement the supported Autodesk applications from conceptual design through construction documentation to building operations.
