

CMMS Implementation

Robotech CAD Solutions offers Computer Maintenance Management System (CMMS) software and implementation services for Engineering and Physical Plant operations to increase efficiency and profitability of the building operations. The ARCHIBUS CMMS consists of Help Desk, On-Demand and Preventive Maintenance applications, integrated with Space Management, AutoCAD and other ARCHIBUS applications. Our supported intranet solutions include IWMS, CAD and BIM systems for Space Management, asset tracking, project management and more. Our CMMS solutions include integrating Mobile devices for field work. Our implementation services include deployment, administration and data development for delivering a complete Turn-Key Web Central CMMS solutions.

Work Orders - Preventive Maintenance - Space - Assets - Mobile
