

Facility Management for Higher Education

Robotech has been providing Facility Management solutions for over 25 years. Robotech offers Integrated Workspace Management Systems (IWMS) with implementation services to higher education institutions and professionals. Solutions include Autodesk CAD & BIM products and ARCHIBUS CAFM systems for Space Management, Employee Occupancy, Move Management, Asset Tracking and Building Maintenance CMMS thru Web Central solutions. Our implementation services for higher education include space categorizing and PI space utilization per grant for Indirect Cost Recovery (ICR) per Circular A-21 and Post Secondary Space Inventory guidelines. System implementations include design and development of system and database for delivering an integrated Web Central IWMS and BIM solutions specific for your organization.

Space - CAD & BIM - Occupancy - ICR A-21 - Work Orders - PM - Mobile
